

**At IIN group Oy we specialize in Production Automation Solutions, encompassing assembly automation, functional testing, and process verification.**

**We are now at a fast pace of growth, and we need more great employees to join our skilled team.**

**We're hiring for permanent position:**

### **Electrical / automation installer for our Kempele location**

The work includes automation and electrical installation of various production automation equipment, both in our own and customers' production facilities.

We require previous experience in automation and electrical installation of production equipment and lines. Mechanical installation experience is also considered an advantage.

The work involves occasional travel, so we expect you to be willing to travel and have sufficient English skills.

#### **Our offering:**

- Competitive salary
- Full-time work
- Expert team support
- New and clean premises
- Inspiring and comfortable working atmosphere

#### **Be part of building a new type of top team**

If you are interested in the job, please send a free-form job application / CV with salary expectations to our email.
